

Key Points Summary

- “Go Live” for the Budget Web-Based Tool is 7/22/2015
- Training for the Budget Web-Based Tool is in June and July. If you have not confirmed your registration, please do so by contacting Angela or by emailing us at DHS-CCFMU@michigan.gov
- In the new Budget Web-Based Tool, historical, monthly 206b/207 details will not be available—only yearly totals. If you think you will need the monthly information, you will need to print these prior to October 1.
- CCF-MiSACWIS 206b/207 training will be in August/September. We will notify you the dates, etc. when registration begins.
- The Security Web-Based training (WBT) will be available soon. Each CCF user is required to review the WBT and then take the test and pass it with at least a 90% score. The test can be taken as many times as needed. Current MiSACWIS users are not required to retake the test at this time.
- The Security WBT will be available online at http://www.michigan.gov/dhs/0,4562,7-124-5455_66660---,00.html soon.
- MDHHS ONLY—since the conference call, we have been informed that the Bridges/IE 11 conflict is not as severe as previously reported. The IE-11 push will be completed for those CCF users who do not currently have IE-11.
- Thank you for participating. Thank you, Liaisons, for all that you have assisted with to date, and in advance for what you will continue to do! We appreciate all of your time and efforts.
